## Education

|                     |                                                                                                                                  |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Aug 2025 - Present  | <b>Ph.D., Biology, University of Virginia, Charlottesville, USA</b><br>GPA: 3.88/4.00<br>Specialization: Neurobiology & Behavior |
| Sep 2023 - May 2025 | <b>M.A., Psychology, New York University, New York, USA</b><br>GPA: 3.84/4.00                                                    |
| Jan 2022 - Jun 2023 | <b>B.S., Psychology, James Cook University, Singapore</b><br>GPA: 3.00/4.00                                                      |
| Sep 2017 - Sep 2020 | <b>B.S., Psychology, University of Tuebingen, Tuebingen, Germany</b><br>GPA: 3.58/4.00                                           |

## Research Experience

|                |                                                                                                                                                                                                       |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025 - Present | <b>Doctoral Researcher</b> (with Prof. Jianhua Cang & Prof. Zezhou Cheng)<br><i>Department of Biology, University of Virginia, VA</i><br>Vision; E-physiology; Computation; Behavior; Mice; Treeshrew |
| 2023 - 2025    | <b>Master Research Internship</b> (with Prof. David Schoppik & Prof. Yunlu Zhu)<br><i>NYU Grossman School of Medicine, NY</i><br>Posture; Navigation; Circadian; Behavior; Zebrafish                  |
| 2019 - 2020    | <b>Bachelor Research Internship</b> (with Prof. Yi Jiang)<br><i>The Institute of Biophysics, Chinese Academy of Sciences, Beijing</i><br>Vision; Gravity perception; Behavior; Zebrafish              |

## Awards and Achievements

|          |                                                                              |
|----------|------------------------------------------------------------------------------|
| Oct 2026 | <b>Travel Award</b> - UVA Britt Travel Award                                 |
| Jul 2026 | <b>Selected Participant</b> - Neuromatch Summer School (Computational Neuro) |
| Feb 2026 | <b>Selected Participant</b> - Flatiron CCN Neural Data Analysis Workshop     |
| Dec 2025 | <b>Travel Award</b> - UVA EXPAND Traineeship                                 |
| Apr 2025 | <b>1st Place</b> – 29th Annual NYU Master’s Psychology Research Conference   |

## Research Publications

### Journal Articles

- 1 **J. Liu**, S. N. Davis, H. Gelnaw, D. Schoppik, and Y. Zhu, “Lighting and circadian cues shape locomotor strategies for balance and navigation in larval zebrafish,” *Proceedings of the Royal Society B: Biological Sciences*, **in press**.
- 2 Y. Zhu, H. Gelnaw, P. Leary, R. Raghuraman, N. Kamath, A. Kraja, **J. Liu**, Q. Bai, S.-i. Higashijima, E. A. Burton, and D. Schoppik, “Tau load in select brainstem neurons predicts the severity and nature of balance deficits in the absence of cell death,” *bioRxiv*, Oct. 2024. 📄 DOI: 10.1101/2024.10.14.618073
- 3 X. Ma, X. Yuan, **J. Liu**, L. Shen, Y. Yu, W. Zhou, Z. Liu, and Y. Jiang, “Gravity-dependent animacy perception in zebrafish,” *Research*, vol. 2022, Jan. 2022, ISSN: 2639-5274. 📄 DOI: 10.34133/2022/9829016

## Poster and Presentation

---

|          |                                                                                                                    |
|----------|--------------------------------------------------------------------------------------------------------------------|
| May 2026 | <b>Poster</b> , 2026 UVA Brain Symposium, University of Virginia, VA                                               |
| Apr 2025 | <b>Poster (1st Place Award)</b> , 29th Annual NYU Master's Psychology Research Conference, New York University, NY |

## Skills

---

|                 |                                                                                   |
|-----------------|-----------------------------------------------------------------------------------|
| Language        | Mandarin (Native), English (Excellent), German (Excellent, Goethe-Zertifikat B2). |
| Computer Skills | Python, Linux, Matlab, R, SPSS, Adobe Illustrator.                                |
| Lab Skills      | E-physiology (Neuropixels, EEG, MEG), Imaging (confocal, fMRI), Sequencing.       |

## Teaching Experience

---

|                     |                                                                                                                  |
|---------------------|------------------------------------------------------------------------------------------------------------------|
| Jan 2026 - May 2026 | <b>Organismal and Evolutionary Biology, UVA Department of Biology</b><br>Lecturer: Manson Jessamyn Sara          |
| Jul 2024 - Dec 2024 | <b>Master's Statistic, NYU Department of Psychology</b><br>Lecturer: Stephanie Keer                              |
| May 2024            | <b>Poster Grader, NYU Department of Psychology</b><br>Coordinator: Elizabeth A. Bauer, David Bosch               |
| Jan 2024 - May 2024 | <b>Integrative Neural Science, NYU Center for Neuroscience</b><br>Lecture: Christine Constantinople, Simon Peron |
